Not Much HereBy AlexandriaHappy that I only paid 25 cents plus shipping for this book. Every project looked exactly the same. Felt like she used the same bits of broken china and just covered different shapes. Found no inspiration there. All the explanations on materials and tools were at the highest level, so would not recommend this book to a beginner. The construction of the umbrella stand was clever.0 of 0 people found the following review helpful. Five StarsBy Robert MoreGreat product, good price!
