Modern and innovative designs that I can't decide which to make first! By Stefanie G. This book is filled with modern and innovative designs that I can't decide which to make first! The projects are all sorts of shapes and include lots of textures and colors. There are excellent directions with clear and informative step by step photos to ensure complete success in casting the concrete. The molds use lots of recycled containers along with unexpected

things like duct tape. If you like plants and tiny gardens this would be a great companion craft to feature your green creations.

Create 35 beautiful planters, decorations, and gifts all using concrete. Follow Hester van Overbeek's simple tutorials to make a huge range of unique concrete projects. You will find everything you need to know what type of concrete to buy, how to use it, and how to decorate it explained in a comprehensive techniques section. From there you can make chic and on-trend home accessories such as upside-down plant pots, a concrete vase with a wooden base, serving platters, a letter-shaped bookend, fruit bowls, and much more.
