daughter (age 10) who was just getting started in learning paper folding. She was able to take this book and start making some incredible pieces.

This book includes papercraft projects for all occasions, from delightful gifts for family and friends, fun projects to make with children, and decorative ideas for around the home. You can experiment with the wonderful range of paper available today, from humble cardboard boxes and newspaper to delicate handmade Japanese paper. It features the latest ideas and inspirations for contemporary designs and techniques that are explored and made simple.
