Janet Storey : Making Upholstered Furniture in 1/12 Scale before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Upholstered Furniture in 1/12 Scale:

0 of 0 people found the following review helpful. One of my best items bought in By Mariana Flores Verduzco I'm a 100% beginner and I "saw the light", lol. Excellent book and excellent condition! I thought because it said used am good condition (there are more conditions better than this one) that I thought oh well, what's important is the content, but both condition and content are great. The author is clever! 1 of 1 people found the following review helpful. Must buy one if my favorite how to dollhouse furniture books!! By silentmonkey11 Absolutely must have for couches and they look so cute . Love the pictures and it even shows you how to do the wooden legs . Just the leather couch alone was worth buying. 0 of 0 people found the following review helpful. Love the different styles offered and the simple instructions By Cindy P. Love the different styles offered and the simple instructions. Wish that I could make MY learning curve go faster. Each one that I make does get a little better.

No specialist carpentry skills are required, and extraordinarily detailed, large-size photos and drawings make the instructions easy to follow. All the basics are covered, from tools to fabric and woods to making seat cushions. Choose from a black leather Chesterfield sofa, an elegant Knole-style settee that replicates a real 17th century piece, a Victorian bedroom chair, club suite, and more.
