As I live base of mountains, so am hoping to learn how to utilize non-insulated greenhouse with no chemicals. :)THANK YOU0 of 0 people found the following review helpful. Four StarsBy Christina ReynoldsThanks5 of 5 people found the following review helpful. Great outdoor marijuana growing manualBy Leonard E. GreenYou can't go wrong, with the easy to understand knowledge that is in this book. This book has lots of interesting instructions on how to grow marijuana outdoors. If you are a beginner at growing your own marijuana buds, this book will help you grow the perfect crop.

Marijuana Outdoor Grower's Guide is written for first-time growers who are looking to learn the basics and have a successful personal crop. For the more experienced grower, the book includes advice on how to enhance the productivity of the plants and ensure success with every attempt. With focus on creating a small grow area that will produce without problems, this book will be an invaluable resource for those with little familiarity with the process of raising marijuana plants. Through selecting seeds and choosing a grow spot to maximizing security and actually raising plants, S. T. Oner writes in a manner that is easy to follow and helpfully instructive at the same time. Protection from pests as well as the elements, how best to harvest and how the more advanced grower can move

forward in their career are all covered, as are the basics of cooking with the harvested bud.
