While it is tiny, and thusly the images are tiny, it is a wonderful object to have. It does contain many high quality images of Mark rydens most iconic blood covered children,which are amazingly beautiful and moving. It is also bound in red leather. Not only does it contain Mark Ryden's art, it becomes an art objects in and of itself. Lovely!4 of 4 people found the following review helpful. really small!!!!By Letizia CottignoliI like all the Mark Ryden's book,also this one!!! but this is like a museum's souvenir, it's really small, one pocket book!!!
