**Wendy Schoen : Mastering Shadow Work Embroidery** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering Shadow Work Embroidery:

3 of 3 people found the following review helpful. Mastering Shadow Work Embroidery is perfect for me.By Jennifer ClementsAs an absolute Shadow Work beginner, I am finding this to be a great resource. Clear instructions which begin at the beginning (i.e preparation of fabric, recommendation of stitch length etc); diagrams which I find easy to follow; stitching tips and showing how to break up a complicated-looking design into simple shapes for embroidering are some of the reasons I am so pleased to have this book in my sewing library. It is also good to be inspired to see Shadow Work as a finishing touch that can be cute and modern as well as classic. The only regret I have is that I did not have a resource like this years ago when my eyes were younger and sharper.1 of 1 people found the following review helpful. Great for a Novice or a ProBy Whidbey MaryI bought this as a gift for a friend who loves to embroider. She is a very experienced embroiderer and quilt shop owner and says this is a great book about shadow work embroidery.2 of 2 people found the following review helpful. Could have had more examples...By Christy AsayIt didn't have as many ideas of shadow work embroidery as I was expecting and hoping for. Wendy Schoen is a popular teacher and I think I was expecting a little more from her book.

Your inspirational sourcebook for everything you need to know about shadow work!Stitchers of all skill levels will be able to achieve stunning results with...Step-by-step instructions featuring Wendy's favorite tools, tips and
