**Pamela Clabburn : Masterpieces of Embroidery** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Masterpieces of Embroidery:

2 of 2 people found the following review helpful. Among my favorite booksBy Jane in MilwaukeeI own hundreds of needlework books: many stitch dictionaries and techniques encyclopedias; tons on specific techniques and many books on the history of needlework or of historic pieces. This book has a great sampling of historic pieces with lovely photos, maybe 2/3 in color. From the Bayeux Tapestry of the 11th century to a coat embroidered in the 20th century, the late Ms. Clabburn (who died 3 years ago) picked a fine bunch of embroideries to display. She's picked items from many famous museums; some I've studied in other books, some new to me. It's interesting that a couple big oriental carpets here weren't woven but cross stitched. Beautiful! I have 2 of the author's other books, The Needleworker's Dictionary--which is of great practical use--and Samplers (The Shire book)--among my favorite books for samplers. She's a good expert and author.
