Joan R Babcock : Micro-Macrame Jewelry II: Artful Designs for the Adventurous Knotter before purchasing it in order to gage whether or not it would be worth my time, and all praised Micro-Macrame Jewelry II: Artful Designs for the Adventurous Knotter:

6 of 6 people found the following review helpful. Disappointed At The Lack of Cavendoli PatternsBy FacetsI love micro-macrame pieces that Joan Babcock offers for sale, and I was expecting to see some similar patterns in her latest book. I was disappointed to find that most of these were similar to what I have been able to access from other macrame artists online and in books. The exception was the bracelet shown on the cover. Where are the cavendoli patterns she is known for? Her book Micro-Macrame Jewelry was a great intro to cavendoli, and I am hungering for more advanced patterns, but none were to be found in this latest book.0 of 0 people found the following review

helpful. It is full of wonderful illustrations on knotting techniques that are so easy to follow. By Bonnie So I have been wanting to learn how to do this Micro Macram. I am a lover of making Jewelry and mostly Beaded Jewelry. But I have fallen in love with the look of combining Beading and Macram together. Macram being such an old Art, I love the re-invention of this wonderful knotting technique mixed with Beads. After a long review of different products I decided to go with Joan R Babcock's book. I studied some of the items on her website and also some of her work and I love her work! This book is a fantastic book! It is full of wonderful illustrations on knotting techniques that are so easy to follow. Great tips given by Joan on what products she uses and why. Then there is a bunch of complete product instructions in great detail, on how to make each piece of jewelry. Just love this book and I have already ordered from her web site my products that I need to get started. I will also be getting her other book and DVD too. 1 of 1 people found the following review helpful. Another good addition to the macrame artist's library. By CraftKid Like other Babcock books, a lot of eye candy and clear, color illustrations. Clear instructions, but best suited to those with some experience with basic macrame knots and techniques, such as cord management, cord splicing, achieving even tension. Would have appreciated more Cavendoli work on more sophisticated designs.

12 elegant new designs for the intermediate knoter. In this follow-up to her original book; *Micro-Macram Jewelry: Tips and Techniques for Knotting with Beads*, Joan leads you on an exploration of innovative design techniques that will inspire you while advancing your knotting skills. With clear, detailed instructions and over 350 step by step photos, these beautiful and sophisticated designs are now easily accessible for micro-macram enthusiasts everywhere. Joan Babcock is an internationally recognized jewelry artist who has shared her knowledge and passion for creating fiber and bead jewelry for over 30 years.

About the Author Joan Reeder Babcock is an internationally recognized fiber artist, jewelry designer, teacher, and author who has been creating one-of-a-kind jewelry and fiber art since 1988. She is known for her unique style of blending cords, beads, and metal elements together, and specializes in the technique of Cavandoli or tapestry knotting. Her work has been featured in numerous fiber art and bead related books and magazines. She is the author of *Micro-Macram Jewelry: Tips and Techniques for Knotting with Beads*, *Wired Micro-Macram Jewelry: Enhancing Fiber Designs with Wire* and a DVD, *Micro-Macram Cavandoli Knotting, Level One*". You can see her jewelry and fiber art at www.joanbabcock.com. You can find more of her classes, ePatterns and micro-macram supplies at www.micro-macramejewelry.com.
