It includes many helpful basics of bobbin lace and lots of detailed discriptions on how to do some of the most popular decorated braids. Photos of traditional patterns are included with their prickings.1 of 3 people found the following review helpful. very pleasedBy Amyrosethe used book was in wonderfully new condition. It is a great addition to my library. The service was prompt.5 of 5 people found the following review helpful. Lacemaking the Milanese wayBy Lori HoweThis book covers a vast array of decorative braids which are the foundation of Milanese lace. A number of fillings are also covered. The last half of the book is filled with lovely patterns both traditional and modern. A truly comprehensive book for beginner through intermediate.

Using these magnificent instructions and patterns, create beautiful decorated braids like those used in early Milanese lace. Sew both traditional and modern pieces, and experiment with new ideas while you increase your skill.
