LozanoIf you love the look of Mandalas, this is the book for you. SO many to make up and I made a cluster on my bedroom wall, with different sizes and colors. ADAMSI just went through this book and saw a number of beautiful designs that I look forward to creating. I can see making a number of these and crocheting them together into unique tops for me, table runners and some looked like they will make beautiful potholders if two are joined with insulating material between them. I love

the versatility that immediately popped into my mind! Not only will I have fun creating, but ultimately they can be put together to make great presents.
