I was so pleasantly surprised! I love all of them. I usually only find a couple of patterns in a book I purchase that I want to make...but this one is definitely different. I purchase patterns and books online and on etsy. Great value for the quality of patterns. I will definitely be buying some of Laura Strutts other crochet books.5 of 5 people found the following review helpful. Wonderful book,

Wonderful patternsBy CustomerThis book has wonderful patterns. In fact I'll be making most of them since they are so lovely. If I don't use the yarn they recommend (if I can't find it or it is too expensive) I know that there are substitutes that I can use. In fact there is one I am already started on and it is working up beautifully. So glad someone showed this book for me because it is the best book I have so far.3 of 3 people found the following review helpful. Worth itBy rbk lambertSome of the patterns are a little too outdated (definitely wouldn't call them modern) for my taste but there are enough beautiful ones to make this book worth it. Honestly, I purchased it just for the pattern for the shawl on the front cover. I'm in the middle of that project right now and loving it.
