Fresh New Projects to Make, Enjoy and GiveBy Embroidery RATModern Mix: 16 Sewing Projects that Combine Designer Prints Solid Fabrics, 7 Quilts + Pillows, Bags MoreI bought this book because my sewing skills and attention span both were in need of a new challenge. So, this fresh and fabulous book jumped out at me because the cover had a delightful round ball-shaped pillow covered in what looked to be dark red rose petals - hey, it doesn't take much for me to buy a quilt book...When I received it, it delivered on its promise: 16 sewing projects! But, these aren't those silly quilted wall hangings or tacky holiday table runners, these are

gorgeous designs with fabulous fabric selections. I made a darling string quilt out of this book and my next project will be the "arts and crafts triptych" where I will be stitching 3 panels and stretching them over canvas to go in an art niche in my hallway. These will be great fun as I search for the perfect fabric. I cannot wait to make the bedspread on the cover. I read the instructions for making the applique circles and this will be a piece of cake! This is just the book I was looking for to jazz up my winter sewing. 0 of 0 people found the following review helpful. So inspiring! By Catherine C. Fry This book is so inspiring! Each time I page through it I pick another project. With Jessica's use of prints and solids you 'see' both. Neither one becomes the background - they both have equal importance. I don't generally like quilts that have a lot of small pieces so these projects are perfect for me. I've bought the fabric for the Gradations Bag and it is just sitting waiting (somewhat patiently) for the current project to be finished. Just can't wait to dig in! 0 of 0 people found the following review helpful. old By Rene I enjoyed what the author had to say, but the projects themselves were recycled, at least that's what it looked like, that the project designer recycled old vintage projects and tried to make them 'modern' instead of coming up with new designs that reflect the modern concept of art today.

A printed fabric is eye-catching, but when it's paired with the right solid, the result can be truly brilliant. This how-to book features 16 projects with a contemporary style that exemplify the dynamic partnership of large-scale prints and bright solids. With pages of fabulous ideas, all the information needed on integrating fabrics and even a chapter on quilt making basics, *The Modern Mix* is a must-have addition to your sewing library.

About the Author Jessica Levitt has been sewing and quilting since the age of 12. Always thirsting for some new craft, she has taught herself countless quilting techniques as well as costuming, event design, and home decor. She is a designer for Windham Fabrics. Her degree in engineering from Duke University is now largely unused while she pursues fulfillment in more creative endeavors. Jessica lives and works in New Jersey with her husband and two children.
