**Britnie and Cian Crowley : Monstivities: A Monstrous Coloring and Activity Book** before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Monstivities: A Monstrous Coloring and Activity Book*:

2 of 2 people found the following review helpful. Color The Creatures By thirdtwin At last a coloring book with detailed drawings for adults that does not try to make the monsters cute. I think any adult who enjoys the horror genre or creature features would like using this book- not all the pages are coloring pages as it's marketed as an activity book as well but there's a lot of line work for you to color in anyway. Recommend colored pencils for best results. 2 of 2 people found the following review helpful. Good for older kids By lexi The line work of the pictures is really thin. Good for older kids, would not suggest for children under the age of 10, there is a lot of detail in the line work as well, which is beautiful, but it makes coloring harder to enjoy.

Monstivities is an adult coloring book filled with monster-based word puzzles, word searches and activities for the biggest monster fan! \*Not intended for children
