Inspirational for people who want to use up their fabric!By K GrahamThe directions seemed very clear. Nice to have color photos. A good variety of scrap quilts to choose from. More Favorite Traditional Quilts Made Easy by Jo Parrot is a delightful new book and a follow-up book to Favorite Traditional Quilts Made Easy, which was a very popular book! This new book is an excellent book for beginner through advanced quilters. There are many delightful traditional projects in this book, all with new tricks and insights on how to make beautiful quilts using a no-template method. The traditional designs include "A Storm at Sea," "Broken Star," "Geese in Flight," "Stars on the Water," and others. There are actually seven great projects, plus two bonus projects in this book. I love how insights are provided on how to create the beautiful Broken Star design using a strip method, as well as how to get a bonus project--a cute wall hanging--by using diamond unit segments from making the "Broken Star" quilt. The "Green Frogs at Sea" quilt design would work great with just about any novelty print, as well various other prints. I also love scrap quilts, and really like Jo's "Scrappy Rectangles" design. It is truly impossible to pick my favorite project in this wonderful book! They are all projects that I'd love to make for my home, charity project, and/or gifts. --SewCalGal--for sewing, quilting, and embroidery enthusiasts About the Author Jo Parrott began quilting in 1982 and has made over 500 quilts since that time.
