Martin Cheek : Mosaics in a Weekend (Crafts in a Weekend) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mosaics in a Weekend (Crafts in a Weekend):

This is a collection of projects presenting ideas for both indoor and outdoor mosaics. Aimed at both experienced mosaic artists and beginners, it features mosaics created using a variety of glass and ceramic tiles, beads, shells, and other found objects. There are 18 step-by-step projects of various sizes, including picture and mirror framing, paving

slabs, wall plaques and decorated plant pots.
