Not Satisfied At AllBy Ms.GottiI bought this book based on a review that said it had nice big and uncomplicated pictures to color and that it was printed on actual coloring book paper. The nice big and simple pictures was true but the paper is that pure white shiny standard printer paper which does not color well using crayons. It's more of a dull and wax like output/deposit rather than a thick oil and rich color deposit. This white paper must be cheaper for the companies these days because today, it is hard to find a proper coloring book without standard white printer paper. I could just print out my own coloring pages for free using plain white printer paper and my own printer and not bother with spending extra money and time on buying a coloring book if that is the case. The paper in this book is not the original coloring book paper that is off white and textured like newspaper or a paper bag. For once, i would like to find the kind of coloring books i enjoyed as a kid.1 of 1 people found the following review helpful. Awesome coloring bookBy margaret smithThis reminds me of retro coloring
