Elaine M Phillips : My Earth: Adult Colouring Book (Secret Flower Gardens) (Volume 3) before purchasing it in order to gauge whether or not it would be worth my time, and all praised My Earth: Adult Colouring Book (Secret Flower Gardens) (Volume 3):

1 of 1 people found the following review helpful. The illustrations in this book are horrible! It looks like a child drew them. I am half tempted to return them, but it doesn't seem worth it. The paper quality is terrible and pictures are printed on both sides of the page. I bought two other books by this same artist at the same time and they are horrible too. Save your money and skip this!

Enter the enchanting world of our Earth, step into the world of coloring. Release your inner child and toss away the

troubles of the day. Reach your own peaceful Zen, ink your world brighter.
