Aspiring Fashionista FunBy Zaabaa While this book most likely won't appeal to the serious fashion student it is a fun activity book for a child or perhaps a grandmother. The book is full of fun fashion ideas that are sure to spark imagination in anyone. My Fashion Doodles and Designs also includes pictures of people or animals with missing clothing items or body parts and it's up to you to fill it in! My daughter found these to be the funnest pages of the book as they gave her freedom with boundaries. Also apparent in the book is the author's love of animals. Occasionally dogs and cats jump from the barn to the fashion world as you are tasked with coloring or designing cat slippers. A fun family book that I would recommend to a young niece/nephew or

"My Fashion Doodles" is a must have for any girl (or guy!) who sees themselves on New York's Fifth Ave or the streets of Milan or Paris. This book allows you to style perfume bottles, complete outfits for yourself (and your pooch). My daughter and her friends loved it. Do note however that this is skewed slightly older and hipper--lots of recognizable brands and references that a younger kid would like, but an older would appreciate more.
