However, four of them are by John Montroll and this book, Mythological Creatures, is one of the best!! The drawings are easy to follow, the designs are very different and challenging and when completed, the three-headed dragon is just awesome!! It took me four hours to fold it, but it was worth the time. Get this book! The folds are great and the results are worth every penny! 0 of 0 people found the following review helpful. Too difficult for beginners and intermediate folders By Deborah Widolf I could not do the advanced designs in this book. The characters are wonderful, just required more skill than I have. I am a relatively new intermediate folder. 0 of 0 people found the following review helpful. Perfect birthday gift. By maggie It was a birthday gift and is just what she wanted. My granddaughter is very talented young woman and this was exactly the book for her.

An exciting collection of projects, including a griffin, centaur, sea serpent, wyvern, and 12 animals from the Chinese zodiac: rat, ox, tiger, rabbit, snake, monkey, and 6 others. "Together this author and publisher combination is responsible for eight of the definitive works that make a good introduction to origami." *Miniatura*.
