**Aurlie Drouet : Natural Designs: Contemporary Organic Upcycling (Diy Designer Projects)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Natural Designs: Contemporary Organic Upcycling (Diy Designer Projects):

In this book Aurlie has collated 20 original DIY projects from internationally-renowned designers, and a few of her own, to create natural and durable furniture. Nature has always been a source of inspiration for designers, and this book offers readers the chance to create furniture and everyday objects with raw materials from mineral to plant. Enjoy a walk in the woods, or beachcomb by sea to unleash your imagination and bring a little nature into your home. From cork hanging lights, a slate desk to a natural wool pouffe and a birch coat stand, discover simple and elegant

ideas that you can make yourself. There's no need to be an experienced handyman to realize these original designs: this book presents 20 creations with step-by-step photos, plans and technical tips. For additional inspiration, Aurelie includes profiles of the contributing designers, and other leading designers from around the world. Includes dual measures.

About the AuthorAurlie Drouet and Jrme Blin collaborated previously on 100% Pallet: From Freight to Furniture and Bookcases: From Salvage to Storage.
