Margo Duke : Needle-Felting Magic: Easy Machine Techniques and Projects (That Patchwork Place) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Needle-Felting Magic: Easy Machine Techniques and Projects (That Patchwork Place):

35 of 35 people found the following review helpful. Highly recommended! By Sue BI've lost track of how many new needle-felting books have come out in the last year but this one really stands out among them. The first thing that tipped me off that there was some new and fun things inside its pages was the cover. A beautiful mix of textures and color and I hadn't even opened the book yet! Margo does a nice job of walking the beginner needle felter through the basics but even an experienced felter will find plenty to be inspired by in these pages. The book opens with a review of materials and includes a needle felting machine comparison chart. There are five projects to get you started ranging

from a bag, journal cover and scarf to a very new and unique way to display photographs. My personal favorite is the fluff and fancy pin. I can see making a lot of these to embellish everything from bags and hats to scarves and sweaters. All of the projects are easy to understand with clearly written instructions and diagrams. Although this book is only 32 pages there's plenty in here to be inspired by. 2 of 2 people found the following review helpful. Inspiring the New Felter By Corinne I knew nothing about felting until I met Margo at an expo in early 2011. Her projects started me on yet another artistic path. Her books sold out at the expo, so I ordered this one right away. It starts out explaining products and process. Now I am hooked. Beautifully photographed, it leads the new and experienced felter along the creative process. Margo has a blog that offers more information and enhances the book. 2 of 2 people found the following review helpful. THIS is a FABULOUS book with clear instructions for the ... By Debra A Burke THIS is a FABULOUS book with clear instructions for the projects in the book....which I can not WAIT to make!

Take the traditional craft of needle felting and turn it into an adventure on your sewing machine! In this ultimate guide to "painting" with fiber, you'll learn to use wool roving to create incredibly soft, lush, and tactile projects--all by machine. * Choose from five projects; learn-as-you-go techniques will lead you to endless creative possibilities * Combine colorful wool fibers with sumptuous silks, colorful cottons, textured yarns, and a range of embellishments * Use these imaginative techniques in artist trading cards, quilts, collages, wearable art--just about any fiber project you make

You've read about sewing machines that feature a needle felting tool and now we present you with the perfect book to show you what magnificent projects you can create with this unique technique. Under Margo Duke's tuition, "you'll learn to use wool roving and other fabulous fibers to create incredibly soft, lush, and tactile projects--all by machine." Create a stunning handbag, scarf, journal cover, pin or an exquisite picture frame--in fact the creative possibilities are endless. By combining rich wool fibers with sumptuous silks, colorful cottons, textured yarns and a variety of embellishments, you'll be creating masterpieces that will enthrall family and friends for years. --Australian Homespun magazine Needle-Felting Magic is simply amazing. Taking various fibers, author Margo Duke creates projects that inspire the quilter and stitcher in all of us. Ribbons and wool are just some of the things she weaves into gorgeous projects, ranging from vests to slipper ornaments. Literally painting with fiber, all the projects are done by machine and the lessons learned with each project will lead you to endless creative possibilities. This book will inspire you to make workable masterpieces. It's a wonderful book for gift giving, too. You will want this in your library for many years to come. --Barnes Noble, Bookseller Picks About the Author Home: Mt. Airy, Maryland Known affectionately in fiber-art circles as "Her Majesty Margo," Margo Duke designs machine needle felting projects for her company of the same name. She is also a teacher for Baby Lock.
