Anchor Book : New Anchor Book of Blackwork Embroidery Stitches before purchasing it in order to gage whether or not it would be worth my time, and all praised New Anchor Book of Blackwork Embroidery Stitches:

0 of 0 people found the following review helpful. I like this book! By Suzel Haven't made anything yet, but love many of the designs and stitch examples. Would recommend to others. 3 of 4 people found the following review helpful. What, no double running stitch? By Barbara West This is a lovely book filled with great illustrations and many, many fill patterns. It also has very clear diagrams and instructions for the back stitch, whipped back stitch, and cross stitch. Period. What it apparently doesn't consider essential is learning to do the double running stitch, which as a beginner I was most eager to learn about in more detail. This is the stitch that can produce reversible work. 13 of 13 people found the following review helpful. New Anchor Book of Hardanger Embroidery Stitches By Kee I was very disappointed when I discovered that this "New" book was just a reprint in larger size of the small (half size) Anchor book I had purchased a couple years ago. There should be a disclaimer on the front of this book so one doesn't buy the same book

thinking this is truly a "new" book. The information in the book is just great however. Any hardanger enthusiast or beginner needs one of these in their collection.

The Anchor Embroidery Series offers the perfect introduction to popular embroidery techniques. Blackwork is a counted thread embroidery technique in which repetitive patterns are used to fill outlined areas. This book covers the materials and equipment needed, the essential stitches, and outlines in step-by-step detail the working of 49 infill patterns. It is sure to become an indispensable reference for stitchers. Blackwork was originally so called because black thread was most often used on white fabrics, but many of the 16 original charted designs provided show how this technique can just as effectively be worked with colored threads on colored fabrics. The beautiful designs include ringing Christmas bells, a charming country cottage, delicate florals and an exotic oriental fan and kimono. There are also ideas for how the delightful designs can be used to create a selection of small projects.

About the Author Jill Cater Nixon is a talented blackwork and cross stitch designer, who has designed for Coats Crafts UK and Kreinik. She has contributed regularly to the needlecraft press and produces kit designs for Choices. Jill lives in Milton Keynes.
