Perfect resource for sewingBy Sydni WhitleyThis is an informative book that is easy to navigate that tells you everything you need to know about sewing. It is the perfect book for keeping in your cupboard to use as a resource. The shape is a little weird so it is hard to fit in some bookcases.1 of 1 people found the following review helpful. Endorsed by Project Runway's Tim Gunn, and by me too!By Dr FrancophoneGreat overall sewing reference. Everything you need to know from A to Z. The only thing missing is a bit more on men's clothing construction, which is why I give it 4- stars and not 5. Besides, if Tim Gunn from Project Runway endorses this book, it has to be great, which it is. As Tim would say, "Make it work!" And this book does exactly that for helping you with your sewing skills.1 of 1 people found the following review helpful. ... for my Sewing class in my university and I love it. It's very beneficial and is easy to understand I would definitely recommend having this book on hand if you're planning on doing clothing construction (not really needed for quilting but if you really wanted)

This is the ultimate stitch-and-seam reference book that brings you everything you need to know to sew your own distinctive creations, whether you are a beginner or an accomplished sewer.

"I always recommend the Reader's Digest Guide to Sewing. It's very comprehensive and very user-friendly" -Tim Gunn, "Spring Forward: Expert Fashion Advice," The Washington Post
