Ann M. Collier : New Design in Bobbin Lace before purchasing it in order to gage whether or not it would be worth my time, and all praised New Design in Bobbin Lace:

0 of 0 people found the following review helpful. Love the book.By Kay A. LohrkeBook is in better shape than I thought when I bought it. Great diagrams. I can't wait to make one of the fans!!!1 of 1 people found the following review helpful. New Design in Bobbin LaceBy Gary mccainI was looking for a specific pattern that someone told me was in this book. It was not there. The book has some interesting patterns.

This book contains a selection of patterns and motifs with explanations of how the designs have evolved and how they can be used. The study begins with simple scrolls and calligraphic motifs and progresses via flowers, animals and human figures to more advanced lace pictures, abstract patterns and floral Bucks for the capable worker. How to use the motifs, and how to build them into an overall design with appropriate filling stitches. Lace designs involves the creative use of different threads, stitches and colours: these and the practicalities involved are explored in detail.
