**Linda Gillum : Noah's Ark: 8 designs by Linda Gillum (CROSS-STITCH)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Noah's Ark: 8 designs by Linda Gillum (CROSS-STITCH):

We've all heard the wonderful Bible story of Noah and the ark and now it can come alive as you thumb through this wonderful book! In Linda Gillum's artistic stitched representation of Noah and the animals shown on the front cover, she has used a classic stained glass border to add a reverent touch to an inspiring scene. While stitching this design you will enjoy watching each pair of animals appear on the fabric with their appealing faces and realistic poses. Also included are seven smaller designs which have equally artistic expressions. 8 projects, 18 pages. Skill Level: Easy
