Tom Julian : Nordstrom Guide to Men's Style before purchasing it in order to gage whether or not it would be worth my time, and all praised Nordstrom Guide to Men's Style:

0 of 0 people found the following review helpful. Must have for guys who need fashion orientation.By Lance HollowayI bought this for my four sons as they enter / exit high school to give them a fantastic primer on men's fashion.How you dress is extremely important to your career and how you feel during important events.I enjoyed so much how the book allows you to choose your style strategy and shows so many examples.8 of 8 people found the following review helpful. Great book for the man who has STYLEBy T.L. WinnerThis was definitely the book for me. I love shoes, clothing and dressing to impress. There's fashion, and then there's STYLE. I believe that dressing with STYLE is the way to dress to impress. STYLE is not about wearing the latest fashions; it's more about knowing how to coordinate colors and patterns, proper fit, and what and how to make clothes look good on Y-O-U. This book is for the man who has STYLE. I spend lots of time on the internet, in men's stores, and in men's departments of major

department stores looking at clothing and shoes, and reading about STYLE and fashion. This book is the most comprehensive collection of usable information on men's STYLE that I have found. I trust it because it comes from Nordstrom, the quintessential customer service company (read the "Nordstrom Way: The Inside Story of America's #1 Customer Service Company"). Believe me, I have no affiliation with Nordstrom other than being a big fan since a friend of mine turned me on to them in the early 90's. I've been hooked every since then. This book is a reasonable reflection of Nordstrom. However, it's not all good. Since Nordstrom's roots are in shoes (and they sale lots of really fine shoes), I was really shocked and disappointed that they didn't go into more detail about shoes (colors, coordination, types, quality, etc.) Overall, this is still a really good book. 1 of 1 people found the following review helpful. good book By Type Ai personally prefer the "details men's style manual" book. Although, I don't think this is a bad book at all. I am a novice as far as dressing appropriately for the right occasion. The book can do a little more work as far as accessories are concerned...ie. watches, shoes, jeans, casual shirts...etc. but it has good information as far as suits, neckwear, and sports coats are concerned. I don't have a white collar job but I like to wear suits every now and then.

The right suit can turn an interview into a job, a lunch meeting into a deal, maybe even a blind date into a marriage. So how does a guy tell his herringbone from his seersucker? Tailored for men of all stripes, Nordstrom Guide to Men's Style is the definitive handbook for dressing well. Richly illustrated chapters offer advice on how to wear (and accessorize) six key wardrobe components: suits, sport coats, trousers, shirts, ties, and tuxedos. With tips from tailors, a size chart, and plenty of photos, knowing what to wear when has never been easier.

About the Author Noted fashion authority Tom Julian is a New York-based consumer trend expert with more than 20 years of experience. His insights have appeared in the New York Times, Women's Wear Daily, and USA Today. He has been associated with Nordstrom as a marketing consultant for the past 10 years.
