I want to be fair, the advise in this book is very good and she shares wonderful tips and tricks of Nuno felting. However it is not beyond the information that you could find on any good felting blog or even a Google query. In addition this book is absolutely and totally overpriced. For close to \$30 one expects a hard cover with stock quality photos and step by step instructions. Instead in reads like a PDF with minimal formatting and the very few pictures it contains are very poor quality and it is difficult to make out the colors and designs. I cannot tell you how disappointed I was.4 of 4 people found the following review helpful. her knowledge out there.0 of 0 people found the following review helpful. No Nonsens Approach- EXCELLENTBy Lorraine TurnerI have collected my share of "how-to" books on felting. This is by far the best and is written simply with a very easy hands-on approach. I love how she tells you all of the things to avoid pitfalls. This book helps you cut through all of the words and get into the craft:)
