How to make yourself crazy to felt and sew with feltBy Kindle CustomerA marvelous book of a vast number of styles and types of felting and designing with felt.Beautiful beautiful examples. I found myself committing to do so felting and design on my own. That may sound difficult or like a big task, but amazingly, felt making is rather easy, and versitile to boot. I loved the book!0 of 0 people found the following review helpful. Hoping I can do this.By Ipse DixitI've wanted to do felt for a long time, and I have a huge old house that needs lots and lots of decorations. Unfortunately, I also have a front-loading washing machine. Duh! Maybe I can still manage. And I'm an ardent knitter. I likes all the patterns, and I'll bet I can find a way to do them. jeannie2 of 2 people found the following review helpful. Nuno is new to me.By Dragon WizardI am new to Nuno felting, so using the "look inside" feature helped me decide on this book purchase. It is a great addition my library.

1st Book Dedicated to Nuno Felting--all things yarn and fiber continue to be hot sales. Nuno felting is a new technique to traditional felting, resulting in lightweight garments and accessories that have drape and flexibility. Great mix of projects. From scarves to home dcor, from surface embellishments, color mixing, fiber blending -- this books develops a rich vocabulary of design ideas and methods. Quick and easy patterns working with diverse fibers. First the first time, felting working with diverse fibers such as silk and wool, to mix and match for distinctive results. In this unique collection of nuno felt projects, the author inspires the reader with innovative ideas for combining beautiful woven fabrics with handmade felt. The author gives clear instructions about how the nuno process works and demonstrates how it can be used on various fabrics and fibers to create very different results. Each of these techniques is fully illustrated with detailed photographs and clear step-by-step instructions.
