I wouldn't say that they are bad or ugly, but they aren't the first thing I connect to babies. The picture in the middle of the cover, is by far the cutest thing in the book.The patterns were ... ok. They weren't fantastic or amazing. If anything, most of them were weird looking.I'm sorry, I just can't get over how they are horribly done. I guess the thing to keep in mind, it's not my type of style - I want more of a clean stuffed animal versus one with visible hand sewn lines. Besides, I want a monkey to look like a monkey, and not a rat. HAHA, if you buy the book - you'll know what I mean.It has potential, but ... it could have been better.Good luck!2 of 2 people found the following review helpful. Cutest Ideas for Baby Ever!By E. LovernI have alot of craft books and this one has absolutely adorable ideas for babies- very cute, trendy and up to date. Instructions are reasonably easy to follow. One of my favorite books for baby sewing projects.
