Instead imagine a scan/reprint on an inkjet printer running out of ink. The stickers in the book I received are pixelated and low in color (whereas the other reviewer's image shows them super saturated and full color). Perhaps the latest batch of them are duds. Buyer beware. 0 of 0 people found the following review

Just what I needed for valentine's day crafts ...By LKPerfect! Just what I needed for valentine's day crafts with my son this year. I love the "old timey" feel to the images. I also love using these little sticker books in scrapbooking, and will do so if any survive our crafting this year.

Engaging designs reproduced from rare sources include cupids, adorable children, romantic messages, more. Apply to gifts, cards, stationery, other items on a variety of special occasions: Mother's Day, weddings, anniversaries, birthdays.
