ComprehensiveBy Lookin'UpIf you ARE looking for a book full of pictures for ideas then this may be a disappointment, but if you are wanting to learn a lot about the whats, whys, and how tos of making jewelry with beads then this is a great book! It gives much info in a neat and orderly way going step by step thru many types of beading. It explains well, yet simply about the different mediums you can use to string beads ON.I'd recommend reading it all the way thru, THEN going back when you're ready to purchase supplies and again when you're ready to create!I'm a real novice and am at the stage where I have many off the supplies but may have gotten the wrong sizes crimp beads to actually get started with stringing...BUT, I have what I need to start using them in wire wrapping which is my primary interest anyway...Anyway, great book, especially for the price! Lots of helpful easily understood information!0 of 0 people found the following review helpful. more about stringing and wire, than beadingBy NobleElfI thought this might be a good beginner's book for beading, but it fails in that aspect. Excepting one 'project', where a the proposed finished coralling project wasn't even shown, the book is about stringing, which she calls 'threading'(confused, as I 've beaded since 1999, as well as belong to a myriad of beading groups, and have never seen nor heard of 'threading'.She also gets beading needles' description backward; the eyes are smaller than sewing needles, or they wouldn't fit though bead holes.Glad it was free.If you want to learn 4 projects using her method of making a wire birds nest, you might enjoy it.2 of 2 people found the following review helpful. creating...By Hollie HitchcockI got this book after seen a hand made necklace created by a friend of mine. She suggested me to buy it, thrilled by the way the author guided her, step by step, using detailed descriptions to make her own jewelry. That is exactly my opinion once I read it. Now, I almost have all materials demanded for the majority of the creations and I am ready to start creating my own handmade jewelry.
