projects and also crocheting. I have downloaded other books by Elizabeth and was pleased. This one caught my attention as well. I am so excited because I'm going to try out some of the really cool and easy ideas to crochet stuff for my baby nephew. I'm a beginner and not a very advanced at crocheting. But I find the patterns and instructions mentioned in this book practical and very easy to follow. The book introduces the basics of crocheting in the first few pages and then the super cute and amazing 15 ideas of one day crochet projects follow. I can't wait to try the Baby Cluck Cluck Mini Bag, Baby Cute Beanie and Baby Bath Mitt. Such a cute and easy to follow book. I definitely recommend it. I look forward to seeing what else Elizabeth comes out with next. Excellent!! 5 stars From A Happy Reader. 2 of 2 people found the following review helpful. Crocheting for Babies - fun and interesting By softballgirl Crocheting is great and as a person who enjoys doing it I am always looking for new ideas. Now with a new baby in the family it is time to turn my crocheting energy into doing few things for a baby. I found some great ideas in this book. Like some other Taylor's books on the crocheting this one is offering easy to follow instructions for doing the project, but also it provides info on materials needed, gauge and size/measurements. At the very beginning you will find basic breakdown of crocheting techniques. All 15 projects are interesting, but my favorite two are Baby snow white pom pom hat and Baby Bath Mitt. 0 of 0 people found the following review helpful. Comments From Other Readers I bought this book because a friend made a blanket just like one in this book and I love it! The patterns are fun, repetitive without being boring, and always lovely. This book is not just for beginners, though; I have been crocheting for nearly 15 years and I enjoy the challenges the patterns present but also getting back to basics. It usually takes 1-2 hours to make a project, while watching TV. Edith C. (Utah, US) With an assortment of wonderful cuddly patterns this book is brimming with wonderfulness! I am not a mother, nor will I ever be but I couldn't resist scooping up a copy and setting to work trying out these patterns. Every pattern is well written with plenty of progress photos and any questions you may come across she is easy to get a hold of and quick to help you through. If you end up picking up this book be warned, you won't be putting it down anytime soon! - Chelsea H.
