**Sunset Books, Symbol of Excellence : One-Hour Cross Stitch** before purchasing it in order to gage whether or not it would be worth my time, and all praised One-Hour Cross Stitch:

4 of 4 people found the following review helpful. Right On and a Bit Better!!!By CustomerI agree with the reviewer, "cameoroze," this is a nice lttle introductory book for cross stitch and loaded with quick and simple motifs that work up nicely if you want a personal gift or project for someone special. What I really like about it is that it doesn't patronize the beginner with the same old tired beginner's themes. Kudos to the editor for that! It does focus a bit too much on the cutsey, baby and Kiddie themes for my taste but some of these motifs can be used elsewhere for fun, like on Christmas ornaments or gift tags or even bookmarks. But there is also a nice selection of unusual choices such as the simple southwestern designs of cactus( more than one variety) and chillies worked in brilliant color and then in pastels and both working out well. There is a selection of 5 different houses to be worked on borders, shelf liners or as part of

a sampler. In short, there is lots to choose from here and it is a good addition to any collection particularly that of a new stitcher.0 of 0 people found the following review helpful. Five StarsBy Lisa JurisGood designs. These take small amount of time. easy to do.0 of 0 people found the following review helpful. The book has a nice variety of counted cross-stitch patternsBy Gretchen L.The book has a nice variety of counted cross-stitch patterns. I think some of them will definitely take more than an hour to complete but, that being said, the nice selection more than compensates for the additional time it may take to complete a design.

A collection of more than 150 varied cross-stitch projects for both beginners and experienced stitchers, with emphasis given to stitching on ready-made garments and household items. Each design is accompanied by a colour photograph and chart.
