I'm not an experienced seamstress, but found the pattern very easy to use and the directions were easy to follow. I loved how the directions were listed our step by step. Every step was well explained with pictures showing what to do. I washed it and tried it on my baby today and it fits!!This pattern is to make a pocket diaper.For cloth diaper newbies, a pocket diaper has an outer layer of PUL to make it waterproof and an inner layer of microfleece or suedecloth to wick the moisture away from the baby. You leave a slit in the inner layer and stuff an absorbant insert in between the layers. These diapers are very convenient for when you will be out of the house and are an excellent nighttime option.I have only made the diaper at this point, not the insert. I have inserts that I love, so I chose to use those instead (the Thirsties Duo insets with microfiber and hemp - they are so absorbant). But

the pattern is fantastic and I plan to make more diapers using the pattern!!! I recommend that you get your PUL and the inner layer fabric (either microfleece or suedecloth) from diapersewingsupplies.com. They have excellent prices and such cute PUL prints. 2 of 2 people found the following review helpful.
