Valuable compendium for those considering a career in craftsBy A CustomerThis book is a valuable guide for students considering a career in the arts. Each career path includes a brief history, a description of the actual processes involved in the work and discusses training options and job potentials. A particular strength of the book lies in including some of the more unusual crafts like book binding, stained glass design and weaving.26 of 27 people found the following review helpful. This Book Offers an Exceptional Measure of InformationBy A CustomerDo you sometimes think to yourself when you're doing a project, "I wouldn't mind doing this for a career." Then the one question you must definitely ask yourself is, "What procedures must I take in order to

develop a career out of my talent?" This book can get you started in the right direction. Opportunities in Arts and Crafts Careers offers you a clear understanding about the various careers available, the skills needed, and how to get started. I wanted to read this book to find out if it would help out fellow woodworkers who would like to pursue a career with their skills, and if it had information for them to get started in one. I've found that not only does it provide information for these two avenues, but also an understanding of the history of the craft. I extremely recommend this book for those who would like to seek a career in the arts and crafts. Elizabeth B. Gardner has performed an exceptional measure of research, in order to write this book with the facts provided in it. 9 of 11 people found the following review helpful. This book is very engaging accessible..with great strength By A Customer I applaud Elizabeth Gardner for authoring Opportunities in Arts and Crafts Careers. This book is a very engaging and accessible reference to a multitude of careers that are too often overlooked by students, their teachers, parents, and counselors. The book covers a broad scope of career opportunities including fine art, applied art or design, and craft. The result is a career reference book with great collective strength.

Describes the training, education, and skills needed for a career in architecture, fashion design, printmaking, graphic design, jewelry making, and landscape design.
