It's beautifully organized with nice pages and glossy pictures. Though I think I use it more than my parents it makes for a nice book on their tea table and a reference.1 of 1 people found the following review helpful. easyBy adriawell written, easy read1 of 1 people found the following review helpful. Fully revised and updated to reflect eco-friendly thinking and techniques, Organic Gardening is a classic guide to growing flowers, fruit, and vegetables the natural, chemical-free way. Whether you want to grow better-tasting fruit and vegetables untainted by chemicals, find natural methods of pest and weed control, or create a garden that is safer

for your children, pets, and wildlife, Organic Gardening is your practical, easy-to-follow guide to gardening with, rather than against, nature.

About the Author Geoff Hamilton, renowned for his common sense and practical approach to gardening, is the author of many books and former host of Gardener's World on the BBC for 17 years.
