Paulo Mulatinho : Origami : 30 Fold-by-Fold Projects before purchasing it in order to gage whether or not it would be worth my time, and all praised Origami : 30 Fold-by-Fold Projects:

0 of 0 people found the following review helpful. Nice origami bookBy L. L. MooreNice addition to my Origami Library.0 of 0 people found the following review helpful. Maybe for beginnersBy ms matchOr not, depending on how quick you catch on and understand directions. They were pretty easy for me but I have been paper folding for a long time. The mice are so cute, I made 50 for a project.3 of 3 people found the following review helpful. One of the best Origami books I've seen yet....By A CustomerI have seen and collected many origami books over the years and this one is a favorite of mine.This book is one that I have only found in one other place besides .com books. It is a treasure of folds starting with simple and beautiful designs to more intermediate-level creative ones which will please any Origami folder. In fact, this book has delighted all the origami folders who have seen it. There are may unique models that just would enchant anyone. There are color pencils which charm and amaze people at its simple, yet innovative design. The elephant is my favorite model of any I've ever come across. This is an origami book to cherish.
