I bought this one twice - so that says it all. Really colorful and exciting paper that is colored on the back side and patterned on the front.0 of 0 people found the following review helpful. Very nice as post-surgery gift (for your crafty friends!)By HKCI bought this as a gift for a friend who is recovering from surgery and is very bored. While I haven't tried out the patterns, I can say that the book itself is very nicely made, with a wide variety of origami papers in nice prints and shades. It makes a nice tidy (square) package to give as a gift.0 of 0 people found the following review helpful. I love this. Already made two boxesBy 000GI love this. Already made two boxes. There are not that many options for box styles, maybe about 5? There is a ton of paper and some of the prints are very pretty - and some are colorful but not all that attractive to me, but once folded up into a shape they're okish. The book would be a great gift for a beginner and or young person who is into crafts. It's a fun book and plenty of paper to hone your origami skills.
