Duy Nguyen, Robert Fathauer : Origami Deluxe Book Gift Set before purchasing it in order to gage whether or not it would be worth my time, and all praised Origami Deluxe Book Gift Set:

6 of 6 people found the following review helpful. Worth it for the paperBy Kathryn N. MarvinI warn the origami purists now, all but one pattern in the book are kirigami (involve cutting), and most are 2 piece models. The tessellation models are based on printed lines on special paper, meaning it would be extremely difficult to do again with your own paper. However, the set can easily pay for itself with the paper included. All is very nice quality chiyogami (a softer, handmade paper) with nice patterns as well as some designed especially for tessellation origami (not my favorite). The tessellation paper would be beautiful for boxes or other structured models. You also get 10 foil sheets (5 silver, 5 gold), a great deal when you only get 1 per package of multicolor origami paper. The box it comes in is pretty nice, though the drawers are fairly shallow, meaning even if you take out the book and organizer, you'll waste some space storing all your paper. However, it's heavyweight, if slightly cheaply constructed. If you don't throw it around, it can be a beautiful storage space for a long time.

The art of origami comes alive with this special gift set, which provides everything a crafter needs to create fantastic folded figures. Its the same successful format that helped Sushi Deluxe become so popular, with all the elements elegantly packaged in an attractive gift box: an exquisite miniature chest of drawers with all the items beautifully organized inside. Open it up to find a fully-illustrated book with both basic and advanced geo-gami projects; a toolset with folding and scoring utensils; a gridded work area mat; and best of all, 80 sheets of origami paper which, if purchased separately, would cost more than the entire set on its own. There are 60 sheets in an 8" x 8" size, featuring 5 patterns; 35 in 6" x 6", with five patterns; 25 that have precise folding lines to guide novices through the challenging

tessellation creations; and 12 in two colors of solid foil. Beginners can start with a Killer Whale, Flying Dragon, and Unicorn, while the geo-gami includes tessellations to make a Triple-Tiered Hexagon, Triangle Squash, and Dancing Squares.
