Didier Boursin : Origami for Her: 40 Fun Paper Folding Projects for Girls of All Ages before purchasing it in order to gauge whether or not it would be worth my time, and all praised Origami for Her: 40 Fun Paper Folding Projects for Girls of All Ages:

0 of 0 people found the following review helpful. CuteBy L.F.some nice attractive models, not in love with the paper. . maybe it was too coated, or maybe too old and it had a tendency to crack. . but the patterns were interesting, attractive and different. Very nice little book2 of 2 people found the following review helpful. Although I won't have my niece's opinion until she receives ...By Nguyen P Nguyen Although I won't have my niece's opinion until she receives this for the holiday, I can warn anyone who searched for origami kits that this is not a kit. It is only a book with tear out pages. There are directions for jewelry and other items, but none of the hardware/findings are included. So, you need to buy your own cords/chains, earring wire, clasps, or any other piece of your project that won't be paper. Also, tearing the sheets out of the book concerns me that they may rip and get ruined.1 of 1 people found the following review helpful. NiceBy Reader Can't wait to get started. Not quite as many patterns as I was expecting though.

40 fun and pretty designs for girls, including jewellery, accessories and gifts. Create necklaces, earrings, brooches,

bracelets, photo frames, mobiles and much more! Make gift boxes and write secret messages for your friends by folding cute mini envelopes. The 112 double-sided pull-out origami papers are all cut to the right size, so you can get started straight away! Plus there are 2 pages of stickers to decorate the finished models. The handy difficulty levels show you which designs are best to start with if you're brand new to origami.

About the Author Didier Boursin is a French origamist and author on books about paper folding. Originally a trained architect and professor of art and architecture, he became the editor of Fold magazine in 1991 and worked on a new range of mobile packages for Orange in 2008.
