Also the foam decorations made things a bit difficult to fold the paper as well. I think it would of been better of including sticker foam so kids can put it on their models when finished. The directions where easy to follow.

No-fail origami animals for kids that are colorful and have real character. The animals that can be created with Origami Fun Folders are easy to make and delightful to see when completed. The pages in the book are colorful and cute, and include button eyes, pre-assembled ears, and other delightful features that pop out when assembled
