The diagrams are excellent, but this book is not for a beginning folder and I would call some of the models advanced. If you like hearts and Origami, this book is for you. Recommended1 of 1 people found the following review helpful. My ReviewBy Raymond J E KnollI have made most of the designs in Origami Hearts. Just about anything you could think of relating to hearts is in this book. The diagrams are accurate and concise. I strongly recommend this book to anyone who is in love and wants to share it.1 of
