Jay Ansill : Origami Monsters and Mythical Beings (Creative Origami) before purchasing it in order to gage whether or not it would be worth my time, and all praised Origami Monsters and Mythical Beings (Creative Origami):

Shows how to make dragons, centaurs, elves, gargoyles and other creatures using only folded paper. Instructions and photographs accompany each design. It gives advice on the best papers to use, has a reference section of all the basic folds plus colour-coded folding diagrams for each piece.
