Margaret Van Sicklen : Origami on the Go: 40 Paper-Folding Projects for Kids Who Love to Travel before purchasing it in order to gauge whether or not it would be worth my time, and all praised Origami on the Go: 40 Paper-Folding Projects for Kids Who Love to Travel:

0 of 0 people found the following review helpful. I would be challenged, but bored with these designs meant for kids. By Katie Bought for a child's gift. Not real happy with the designs. Not really very exciting designs for a kid. May be too difficult, even for the twelve year old to follow the instructions and I wanted it for the nine year old. One plus is the paper in back of book is perforated to tear out and made for specific designs and also stickers. 0 of 0 people found the following review helpful. Papers included! By Customer THE BEST ORIGAMI BOOK EVER!! Great present for young and old. I have bought so many of these... 2 of 2 people found the following review helpful. Simple origami By Patricia Summers I teach origami to kids. This book contains easy-to-follow instructions for basic shapes and animals. The variety of objects from finger puppets to animals to cultural helmets to a functional box teach you how to manipulate paper to create different origami models. This book contains the different origami papers, stickers, and fun facts about each origami model. It is a great complete book to start learning to fold origami and learning at the same time.

The perfect antidote to "Are we there yet???" Once kids get their hands on the travel-inspired projects in Origami On-The-Go, hours will fly by. Origami in itself is such an absorbing activity; add to it the pleasures of using vibrant custom papers to create unexpected animals and planes and cultural treasures, and the combination is a lifesaver (for parents), entertainment (for kids), and a great learning experience (good for parents and kids). Margaret Van Sicklen, the "origami swami" who's known for her clear, easy-to-follow instructions and clever designs, creates 40 projects

with a globe-trotting theme Stunt Plane, Rainforest Turtle, Samurai Helmet, Mummy, Dachshund Chopstick Rest, Tiny Scrap Book, Nantucket Swordfish, Chinese Opera Hat. The folds are geared to children as young as eight, and range from the playful, Pig Finger Puppet, to the practical, Souvenir Wallet, to the beautiful, a Peacock the kind a traveler might find strutting on the grounds of the Taj Mahal. Paper for the projects is included in the back of the book: 100 sheets of colorful, custom-designed origami pages, each tied in to the projects, plus two pages of stickers. Along the way kids learn much about the world: how to convert dollars to euros and the names of original currency; the Seven Natural Wonders; essential words in different languages; latitude and longitude; all about the chatty, intelligent crows of Russia and Australia's fuzzy koala bears inspiration to make one of your own.

About the Author Margaret Van Sicklen, self-described "origami swami," is the author of *Joy of Origami* and the bestselling *Origami Page-A-Day* calendar. She lives in New York City and Santa Barbara, California.
