Webb This is a fantastic gift for someone who likes origami -- even if they are not serious about doing each day's project, there is always a new one! I'm guessing they get harder as the year goes on, but from what I saw, good directions and pretty fun stuff to make. 2 of 2 people found the following review helpful. Addictive fun By August I look forward to folding a new model each morning before I start my day of work. This makes a great desk calendar. The molds are fun to fold. Some are very easy and other take a little more patients. Overall, this should be a lot of fun for almost anyone. 2 of 2 people found the following review helpful. Fun for all ages By S. L.
