**Rob Wall : Origami Paper, 200 Kimono Patterns and Jewel-Toned Solids (Origami Paper)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Origami Paper, 200 Kimono Patterns and Jewel-Toned Solids (Origami Paper):

5 of 5 people found the following review helpful. Beautiful designs on mediocre paper By Leslie S Artist Rob Wall has created some of the most beautiful origami paper I've ever seen. The 100 sheets with prints are sophisticated versions of traditional kimono designs. Colors are coordinated so that you can use more than one pattern on a project. (There are 20 patterns with five sheets per.) And if that weren't enough, on the back of each sheet is a neutral version of the design on the front. The 100 solid sheets are shiny and have jewel tones, with white on the back. The problem - a big one - is the quality of the paper. The design sheets are a bit thicker than washi paper, and tore when I needed to correct my origami shapes. The color on the solid sheets came off whenever I made a fold. I would recommend this paper for origami that requires only simple folds, and for craft projects. Someone wrote on another site that sells this paper that it's good for teaching origami because the finished product looks very good. Also, you do get a lot of paper for the money. Another Rob Wall origami paper collection is supposed to come out September, 2014. I hope that they use better quality paper. Rob's designs deserve this.

Paper folding is an art both centuries old and at the same time wonderfully modern. In this lavish collection, origami enthusiasts and paper artists will find 200 sheets of quality paper - 100 sheets printed in gorgeous classic kimono patterns

and 100 in rich jewel tones reversing to a soft neutral. The instruction sheet-which itself folds into a full-size samurai hat-features eight classic folds, so you can get started right away!
