17 of 17 people found the following review helpful. Not perfectly squareBy ashPaper is not square! Slightly off, which drives me nuts! Some of the patterns are really nice, but others are a bit much. I wouldn't buy again.13 of 13 people found the following review helpful. Buy a different type!By C. O'ConnorI'm giving it two stars because the patterns are bright and pretty but the paper is difficult to fold and these are not exact squares so you cannot fold them corner to corner and have them work for even the most basic origami. Very frustrating, waste of money.1 of 1 people found the following review helpful. Too thick and slickBy Marion R. DubeauThe patterns are vibrant and mostly beautiful. Some are a bit much. My real objection is the paper texture is not appealing. It is too thick, slick and not precisely cut, furthering the difficulty to work with it. Hard to get a nice, crisp fold. I won't buy it again.I recommend you look for

Washi style Origami paper- it is far superior to this paper.
