I didn't want to look up YouTube videos all day for her, and we couldn't quite understand the previous books we purchased. Well, this kit was the best thing to get her to learn origami. She was able to watch the included DVD, and quickly learned the basic origami steps. Now, she can even understand her other books. 0 of 0 people found the following review helpful. Excellent Beginner Intermediate Book By Pen Name Very detailed illustrations. Videos are also helpful. Get these basic shapes down and you can make anything the pros make. 2 of 2 people found the following review helpful. Excellent Introduction to Origami on a Kindle By Cliff Landesman I was looking for a basic origami book for my Kindle Fire. I tried a few others (e.g. Origami Extravaganza), which proved to be inadequate. This is just what I wanted: it covers the classic origami bases and presents simple, well illustrated models. I didn't need the video.

This origami kit teaches origami beginners all the most important folds and techniques. This all-inclusive origami paper craft kit with instructional DVD will teach you to create beautiful origami as if you are right in the studio.
