**John Montroll, Robert J. Lang : Origami Under the Sea (Dover Origami Papercraft)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Origami Under the Sea (Dover Origami Papercraft):

In Origami Under the Sea, John Montroll and Robert J. Lang have collaborated to produce a truly elegant work. The pages of this book contain some of the most creative origami published to date. Each project is accompanied by a biological sketch of the animal to enhance the visual description. There are 26 models in all, ranging from the lowly barnacle to the mighty whale. In between are to be found a cuttlefish, angelfish, lionfish, and blue crab, to name but a few of these unusual origami figures. Each model is illustrated with step-by-step instructions, using the unique folds that make each of these animals so lifelike. Beginner and experts alike will find hours of creative fun in these pages.

Origami Under the Sea also includes a summary of the history of origami sea life.
